ABOUT THE ORGANIZERS

VEDSEADUS LEGAL

At VEDSEADUS LEGAL, we believe in the fundamental value of justice. True to our name, VED signifies sacred knowledge, while SEADUS—derived from the Estonian language—means pious law. Established in 2023, we are a trust dedicated to making justice accessible to all by promoting legal awareness, education, and empowerment. Our work focuses on bridging the gap between law and society by spreading knowledge of legal rights, guiding individuals—especially the poor and marginalized—towards avenues of justice, and mentoring students in their pursuit of legal careers. Since our inception, we have conducted more than 25 community awareness visits and several workshops on critical legal and social issues, while also providing meaningful internships and research mentorship to over 100 law students. Through these initiatives, VEDSEADUS LEGAL seeks to build an inclusive platform where law is not just the privilege of the few, but a tool of empowerment for all.

MANAGEMENT SCIENCE UNIVERSITY

Management and Science University (MSU) is a globally recognised institution, ranked by both Quacquarelli Symonds (QS) and Times Higher Education (THE), dedicated to building holistic human capital and championing equality through transformative education. Its award-winning academic programmes meet rigorous local and international standards, accredited by bodies such as the Malaysian Qualifications Agency (MQA), Japan's ABEST21, the Netherlands' ACEEU, the UK's IBMS, and Sri Lanka's UGC. The university has been honoured with multiple awards, including Engaged & Sustainable University of the Year 2024, People's Choice Award 2023, and Global Green University of the Year 2023 by ACEEU, alongside previous recognition as Asia's Most Entrepreneurial and Engaged University. MSU also holds the prestigious EMNA E-STAR for its commitment to education, research, and entrepreneurship, as well as the QS 5-Stars Overall rating across multiple metrics.

CONCEPT NOTE

In today's rapidly evolving world, the idea of justice must be redefined at the intersection of policy, technology, and sustainability. Law can no longer operate in isolation; it must respond to disruptive innovations, complex governance challenges, and urgent environmental concerns while ensuring inclusivity and equity.

This International Virtual conference on Reimaging Justice: Law at the crossroads of Policy, Tech and Sustainability seeks to critically examine how legal systems can adapt to these emerging realities. It will explore the role of policy in shaping access to justice, the impact of technology on legal processes and accountability, and the responsibility of law in advancing sustainability and intergenerational equity. Recognizing the importance of education and capacity building, it also emphasizes the role of clinical legal education in preparing the next generation of lawyers and policymakers.

By bringing together scholars, practitioners, and students, the conference aims to provide a platform for dialogue and collaboration, ultimately envisioning a justice system that is dynamic, inclusive, and responsive to contemporary global challenges.

SUB THEMES

THEME 1

Law and Policy Making at the Crossroads of Justice

- Law as an instrument of social and economic policy reform.
- Public interest litigation and its role in shaping policy.
- Balancing individual rights and collective interests in policymaking.
- Evidence-based law reform: integrating data and research into legislative processes.
- Global governance, international treaties, and domestic legal adaptation.
- Policy challenges in criminal law reforms, corporate liability, and regulatory frameworks.
- Role of legal education in nurturing policy-sensitive lawyers.

THEME 2

Law and Technology: Transforming Justice Delivery

- Artificial Intelligence and the future of legal reasoning.
- Blockchain and smart contracts: impact on dispute resolution.
- Cybersecurity and data protection laws in a digital society.
- Online dispute resolution (ODR) as an access to justice tool.
- Regulation of emerging technologies: AI ethics, biotech, fintech, and surveillance.
- Legal tech startups and innovation in justice systems.
- Risks of digital exclusion: ensuring equitable access to technology-enabled justice.

THEME 3

Law and Sustainability: Pathways to Equitable Justice

- Climate justice litigation: law as a driver of environmental accountability.
- Corporate responsibility: ESG (Environmental, Social, Governance) frameworks in practice.
- Intersection of human rights and environmental protection.
- Legal approaches to sustainable development goals (SDGs).
- Energy law and policies for renewable transition.
- Indigenous rights, natural resource governance, and legal safeguards.
- Intergenerational equity and constitutional environmentalism.

THEME 4

Clinical Legal Education: Justice in Action

- Specialized clinics: human rights, environmental law, cyber law, consumer protection.
- Global collaborations and cross-border experiential learning.
- CLE in new domains: space law, biotechnology, AI governance.
- Restorative justice and mediation clinics as alternatives to adversarial litigation.
- Measuring impact: assessing outcomes of CLE for students and communities.
- Adapting CLE to new criminal laws, corporate accountability, and white-collar crime.

Kindly note:- The above list is not exhaustive and the papers can be on any title related to Access to justice.
